Regional Swimming Championships, 12 years in Clubs
Travelling
Cooking: creation of a recipe page on
instagram: @Azuretcoctotte

PROFIL

Descended from a family of interior designers, and now specialized in contemporary design and technology, I reconnect with my past by creating trompe-l'œil and experimenting with new tools such as artificial intelligence. In my practice, I link the art of designing spaces and objects with contemporary issues. I like to bring together different practices, from drawing to installation and 3D. My work is multidisciplinary and aims to create a breach between the real and the imaginary.

EDUCATION

ENSCI, MASTER OF DESIGN

2022-2023 Specialised Master, contemporary design and technology at L'ENSCI. Ecole Nationale Supérieure de Création Industrielle de Paris
